## Projects\*

*\*Specific projects cannot be disclosed due to a non-disclosure agreement with my previous employer*

- 1) Learning Management Systems - Developed and implemented **Moodle** and **Totara** LMS to a number of clients with different needs using **PHP**, **MySQL**, and **Moodle APIs/Libraries**. Developed a lot of plugins including Reports, Import/Export Tools, Themes, Games using **Phaser**, SSO, and many others.
- 2) Moodle App Customisations - Customized and rebranded the Moodle app for our LMS clients. The app was built using **ionic**, **Angular**, **Cordova**, and **Electron**. Custom builds were deployed to Android, iOS, Windows.
- 3) A Content Development Platform - Built using **React**, **Material UI**, **Electron**, **NextJS**, **NodeJS**, **NeDB** and many other javascript modules.
- 4) Laboratory Information Management System - Developed using **React**, **Material UI**, **Redux**, and **Firebase**.

## Experience

ADEC Innovations

Systems Developer II

October 2016 - January 2021 (4 years 4 months)

Alabang, Muntinlupa, Philippines

## Education

San Pedro College of Business Administration - San Pedro, Laguna

Bachelor of Science (B.S.), Information Technology · (2011 - 2015)

## Certifications
